

LIGHTWEIGHTING + PERFORMANCE

EXTERIOR BUILDING PRODUCTS OEM

SHEET/PROFILE EXTRUSION

AVIENT SOLUTION

Hydrocerol™ and Excelite™ CFAs

WHY AVIENT?

- Met customer needs and timing with effective and efficient CFA solutions
- Provided formulations that improved the dispersion and efficacy for optimized performance and control in manufacturing
- Offered application and processing expertise focused on specific customer manufacturing assets and operations, allowing improved material usage and reduced operational costs

LEARN MORE

KEY REQUIREMENTS

- Source a cost competitive and effective chemical foaming additive (CFA) with prompt availability
- Incorporate a CFA lightweighting solution with consistent cell structure and density for better overall operational performance
- Improve material usage while manufacturing on both single and twin screw processing equipment
